

00:00:00,280 --> 00:00:20,320 [Speaker 0]

Okay, user case , order Swiggy and genuinely wrong , food order chatbot help and [] I just got my refund. No questions asked or maybe

00:00:22,120 --> 00:00:48,700 [Speaker 0]

In the second case, I tried to scam them, order wrong refund , - But refund chatbot , point , customer agent , , refund history mail , we will see.

00:00:50,060 --> 00:01:13,080 [Speaker 0]

- second user case time same account time order , maybe , - weeks , order after maybe three weeks maybe, I am not sure. same scam try and this time I got my refund.

00:01:14,920 --> 00:01:37,500 [Speaker 0]

In the third user case, I ID login phone number logged in and ID and new ID use Swiggy account. And ID , order and scam this time I,

00:01:38,720 --> 00:01:49,920 [Speaker 0]

I got my refund. But scam , , genuinely wrong , refund So data pattern
